Collect and Process Attendance Information

Web Time Clock

Track time through our timesheet entry form or simulate a "Punch Clock" with the Web Time Clock interface. Tracking time securely and accurately through your web browser.

The ITCS-WebClock computer lock down feature ensures only authorized access to the Web Time Clock. Managers and administrators may continue to access the system from multiple locations.

The screenshot shows the 'Puncher, Clock' interface. At the top, it says 'Client: ITCS Demo Site - 7.04 (Customer ID: demo70)'. Below the header, there are navigation links: Home, Current TimeSheet, Approve Current, Previous TimeSheet, Approve Previous, Hours and Description, Change Pin, and the current date/time: 04-25-08 12:45 PM - EASTERN. The user is identified as 'Puncher, Clock' with Employee ID 9995. The interface includes a 'START' button, 'OUT', 'IN', and 'END' buttons. There are also fields for 'Comments', 'Job Task' (020-C U Medical Center : 09-Cardiac Surgery), and 'Place' (Edwardsville). A message box on the right says 'Message of the Day: Welcome to WebClock Demo 7.0 please connect to https://www.webclock.biz/prod/demo70/'. At the bottom, there are two status messages: 'You have 2 Open Time Off Request(s)' and 'You have 1 Approved Time Off Request(s)'.

Web TimeSheet Entry

Enter hours via a grid form. Employees print timesheets, electronically approve time and request time off. Also, employees enter expenses and view schedules. Employees allocate time to tasks for job costing and different work locations.

The screenshot shows the 'Entry, Timesheet' interface. It displays the same user information as the previous screenshot. The 'Message of the Day' is the same. The 'Time Off Type Hours Earned' section shows Vacation: 16.00 and Sick: 24.00. Below this is a navigation bar with 'Home', 'Current Timesheet', 'Approve Current', 'Previous Timesheet', 'Approve Previous', 'Hours and Description', 'Change Pin', and the current date/time: 04-25-08 01:13 PM - EASTERN. The 'Select Date [Week #: 17]' is set to 04/25/2008 (17). There are 'Go' and 'Print' buttons. The main part of the interface is a grid for entering hours. The grid has columns for days of the week (S, M, T, W, Th, F, Sa) and a 'Total' column. The rows represent different job tasks and places. The first row is for '020-C U Medical Center : 09-Cardiac Surgery' at 'Edwardsville' with 1 shift. The second row is for 'Medtronic: Neuro' at 'Stanton' with 1 shift. The third row is for '020-C U Medical Center : 09-Cardiac Surgery' at 'Edwardsville' with 1 shift. The 'Totals' row shows 0.00 for each day and 13.00 for the total.

Job Task	Place	Shift	S	M	T	W	Th	F	Sa	Total
020-C U Medical Center : 09-Cardiac Surgery	Edwardsville	1	8.0	8.0	4.0	2.0	6.0	0.0	0.0	38.00
Medtronic: Neuro	Stanton	1	0.0	2.0	4.0	0.0	3.0	0.0	0.0	20.00
020-C U Medical Center : 09-Cardiac Surgery	Edwardsville	1								0.00
Totals:			0.00	0.00	0.00	0.00	0.00	12.00	0.00	13.00

Collect and Process Attendance Information

Collect Punches through Devices

ITCS-WebClock data collection solutions capture data and store punches, automatically processes the time and attendance data and loads to the ITCS-WebClock. The workforce data is now available at any location.

Seamlessly integrate the ITCS-WebClock with time collection devices. Use Biometric time clocks to control buddy punching.

Employee Collection through Web-based solutions, Card, Proximity, Biometrics, Touch Screens, Mobile Phones, PDA's and badge terminals.

Customization and 3rd Party Software Integration

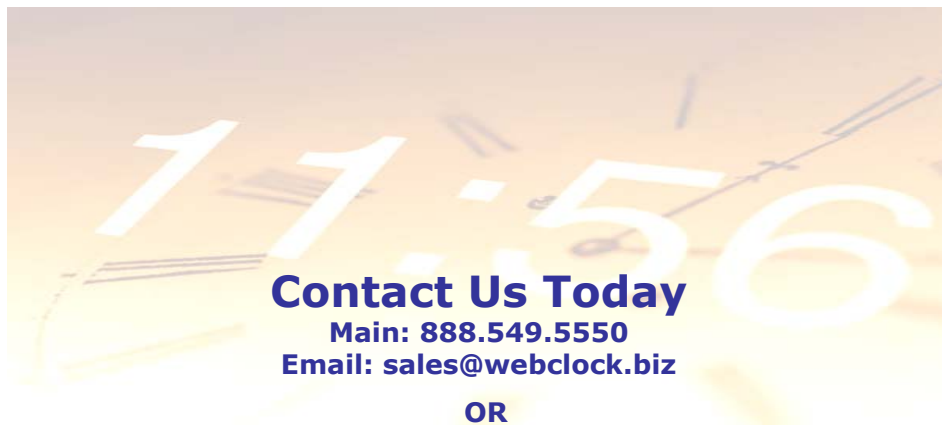

ITCS-WebClock can be tailored to meet your needs. The system can be customized to interface data directly to your accounting and payroll providers.
